MUHAMMAD ZAKRIA KHAN

Computer Science Student

Islamabad, Pakistan | zikriya141@gmail.com | 0333-8802939 | LinkedIn Profile

PROFESSIONAL SUMMARY

Computer Science undergraduate (Batch 2022–26) with hands-on experience in Python programming and applied machine learning. Built a deep learning-based diagnostic project for medical image classification, demonstrating strong foundations in data-driven problem solving. Seeking to apply and grow technical skills through internship or entry-level opportunities in software development or AI/ML.

EDUCATION

Bachelor of Science in Computer Science Batch 2022 – 2026

University of Swabi

TECHNICAL SKILLS

Programming Languages: Python

Web Development: HTML, CSS (fundamentals)

App Development: Fundamentals of mobile app development

Databases: SQL, Database Management Systems (DBMS)

Machine Learning / AI: Convolutional Neural Networks (CNNs), Deep Learning fundamentals, Natural Language Processing (NLP)

COURSES & CERTIFICATIONS

- Artificial Intelligence — core concepts, search algorithms, and intelligent systems
- Database Systems — relational databases, SQL, and database design (DBMS)
- Mobile App Development — building and deploying applications
- Natural Language Processing (NLP) — text processing and language models
- Machine Learning — supervised/unsupervised learning and model evaluation

PROJECTS

AI Chest X-Ray Assistant

Python, Deep Learning (CNN)

- Developed a deep learning model using Convolutional Neural Networks (CNNs) to analyze chest X-ray images and assist in detecting diseases such as pneumonia and COVID-19.
- Implemented image preprocessing and classification pipeline in Python to improve diagnostic support accuracy.
- Applied core machine learning concepts including model training, evaluation, and image-based feature extraction.

STRENGTHS

- Strong analytical and problem-solving mindset
- Quick learner, self-taught in applied Python and machine learning concepts
- Eager to contribute to internships and entry-level roles in software development or AI
